Detailed Product Information:

A.D.A.M. The Inside Story

A multimedia journey into the secrets of the human body. Over 4,000 individual structures can be identified as the human anatomy is revealed layer-by-layer, from skin to skeleton. Rotate 3D anatomical images to identify important structures, take an animated tour through the heart, lung, and skull. The Family Scrapbook features a modern-day Adam and Eve touring through each of the body's 12 anatomical systems. The body's 'inner workings' are revealed in the context of daily activities, making each system's role clear and easy to understand. Over four hours of detailed animations, video, and sound show and explain everything from the basics of swallowing and digestion of food, to more serious issues such as coronary artery disease, to the role of less familiar systems like the Lymphatic System.

Life's Greatest Mysteries

The companion CD-ROM to A.D.A.M. The Inside Story, delivers surprising answers to questions young people ponder. How does a cut heal? What makes your heart beat? Why do people faint? What causes goose bumps? Amazing animations, fascinating facts, challenging puzzles and award-winning illustrations combine to make exploration exciting every time your students click a topic. The tone and complexity of the content is perfect for grades 5-8. They'll discover how the body works-and why. Also included are settings that allow you to lock out subjects you perceive as undesirable.

Instructor's Resources

This invaluable supplement provides ideas and activities to enhance your curriculum. The user-friendly CD content includes an archive of printable material to help keep your class stimulated and involved.
