Detailed Product Information:

High-resolution images and detailed drawings highlight the distinguishing characteristics of 34 different species of the Daphnia found in North America. The program is divided into three sections. The first of these, the Species List, provides background information that will be valuable to the casual user. The second section, Map View, offers images of one or more species of Daphnia from a particular region of North America. The final section, the key, is a powerful tool designed to help you to systematically identify a species using high-resolution photos and detailed drawings.
